## REPORT

**Name of the Program:** International Yoga Day

Duration of the time: One Day

Resource Person Details: Mr.Sacidananad satapathy , Instructor RSS koraput

Every year on June 21, the globe celebrates International Yoga Day to bring attention to this age-old discipline and to recognize the benefits yoga has had on people's physical and spiritual well-being. Yoga is a technique that is effective for calming the body and mind and enhancing one's immune system.

The eighth International Yoga Day was observed by Jeypore College of Pharmacy today, June 21, 2022. Numerous eminent professors, associate professors, assistant professors, non-teaching staff, and students enthusiastically attended.

The event began with a brief introduction to Yoga Day by Mr. Sachidanad Satapathy an Instructor from RSS Koraput.

All of the students participated in warm-up activities and did both sitting and standing asanas while simultaneously hearing explanations of their significance. The speech by our illustrious principal, Prof. (Dr.) Sangram Keshari Panda brought the celebration to a close. He advised pupils to regularly practice yoga in order to stay in shape and sharpen their focus.

The value of yoga in one's life and how to maintain body-mind harmony were taught to all faculties, staff, and students. The students committed to including yoga in their daily lives as they talked about its significance and demonstrated various poses.

To overcome the stress and anxiety, a seminar on stress management and concentration development was organized at Jeypore College of Pharmacy. The students of the college participated in the seminar. Aiming to guide the students on how to relieve themselves from stress in order to excel in the fields chosen for them, the workshop was addressed by motivational Sister Archana. While addressing the students, Sis. Archana said that anxiety is a part of human nature, but it is important to know how to overcome it. "Youngsters most of the time find it difficult to face the changes and to cope with such variations. Hence, this leads to stress, anxiety, and tension." As she explained to the students about stress management, she said that the students should always share their problems with others instead of keeping any knots in their minds. She also suggested they be interactive during the seminar so that they could learn the art of handling stress and tension.
