DISABLE FRIENDLY POLICY DOCUMENT

JCP has implemented the national disability policy for persons with disabilities formulated in February 2006, which deals with the educational rehabilitation of persons with disabilities. JCP's policy recognizes the value of persons with disabilities as human resources. In order to achieve equality, the institution strives to create a welcoming environment. Students are provided with opportunities, their rights are protected, and they are able to participate fully in the academic environment.

The focus of the policy is on the following:

- Assuring the design of the building, such as the ramp or lift, is accessible to the disabled.
- The provision of accessible, gender-sensitive, safe, usable, and functional washroom facilities at work is intended to increase awareness of the needs of disabled persons.
- Persons with visual impairments will benefit most from using signs that use male and female symbols, following local customs and standards, with raised outlines and bright colors.
- In the classroom and out, students with disabilities need access to the right resources, assistive technology, leadership, teaching staff, and college communities that respond to their needs.
